

Technical Data Sheet

MAR. 11th 2007

| | |
|-------------------------|--|
| Item | Paintable Masking Film |
| Usage | Automotive Refinishing Works |
| Material | 100% Virgin of High Density Polyethylene |
| Color | Transparent(HDPE Natural Color) |
| Thickness | 0.010mm ± 3% |
| Width | 4.0m, 5.0m |
| Length | 120m, 150m |
| Heat Resistance | 10°C - Max 140°C(Woring range in Spray booth) |
| Static Treatment | yes |
| Specification | 1)Sticks immediately to the surface of the things when places on it. |
| | 2)Very flexible, suits the shape of the car and does not tear. |
| | 3)Transparent, can be cut in the exact size. |
| | 4)The things can still be moved when it is already masked. |
| | 5)It does not give off fluff and dust |
| | 6)The paint sticks to the film and does not peel off when it is dry. |
| | and No more dust in the paintwork. |
| | 7)Closed surface structure. The paint can not get through. |
| | 8)Resistant to spray booth temperatures and infrared drying. |
| | 9)Absolutely waterproof, even when used with waterborne paint. |
| | 8)Resistant to compressed air, can be blown dry. |
| | 9)Can be compressed to minimum dimensions. Less waste. |
